DETAILED ACTION

This office action is in response to the RCE with amendment filed July 6, 2006. In accordance with the amendment, claim 22 has been amended. Claims 22-27 are pending.

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on July 6, 2006 has been entered.

Allowable Subject Matter

2. Claims 22-27 (claim 22 the sole independent) are allowed. The following is an examiner's statement of reasons for allowance: the relevant prior art of record (Cox et al. US 2001/0048968.A1) does not teach or reasonably suggest the specific amended *method* limitation in which the top surface of the base member has a *circular or elliptical* shape. There is no reasonable suggestion from the prior art (Cox) of record to make the upper surface of base member 22 into a circular or elliptical shape, since Applicant discloses the benefits of this configuration on specification [0076]-[0078] (being able to control the shape of the optical element, etc.).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2874

Response to Arguments

3. Applicant's arguments, see RCE with amendment, filed July 6, 2006, with respect to newly amended independent claim 22, have been fully considered and are persuasive. The rejections of claims 22-27 to Cox et al. '968 have been withdrawn.
